

# Thanksgiving Turkey Center Piece

# Thanksgiving Turkey Center Piece

Materials needed: 1 small can

Construction paper hand prints

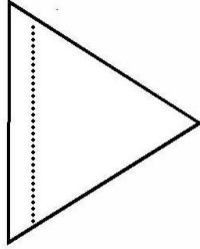

Turkey face template (below)

Glue Stick

Crayons/Markers

Fall construction paper

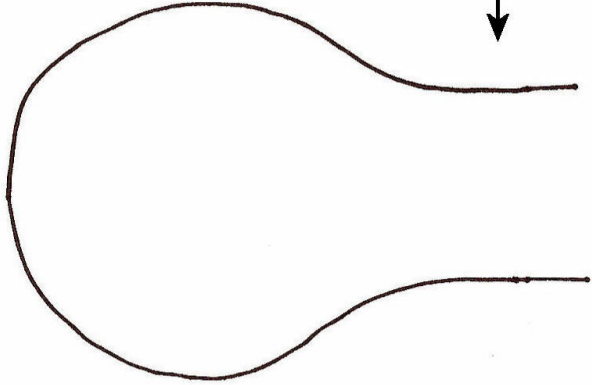

Directions: Print off template for turkey head onto cardstock. Cover your clean small can with a fall colored construction paper. Glue the can and then the construction paper will stick to it. Color the turkey head, beak pieces. Cut out. Glue turkey head to the inside portion of the can. Center it so that the head is in the middle of the can on the back side. Cut out construction paper hand prints and glue to the back of the can (the same side that the turkey head is on - see picture for details). You may use squiggle eyes for the turkey. Fill middle of can with candy in festive wrappers to finish off the centerpiece.

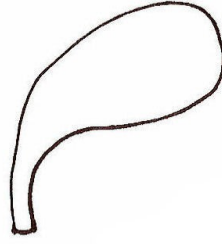

turkey beak - color yellow

Bent at the dotted line and glue to turkey head with waddle beneath it.

turkey head

waddle

color red, goes under beak
